

News from Europe.

CHICAGO, Dec. 25.—Mrs. Augustus N. Dickenson, widow of Augustus Dickenson, author of the famous "Journalist," committed suicide yesterday. Cause—poverty. She was 60 years old.

KINMERA, N. Y., Dec. 25.—Tele No. 19 on the Rochester division of the New York Central, says that the express train to this evening west of Bloomsburg station. No damage was done by the express.

The Times has another long editorial article on the Alabama claims. The People of both America and England, the Times says, have a right to exist in future between the two nations. This unseemly arises from the fact that the United States has given up the Alabama question.

The Times believes that Secretary Seward's speech was a wise one, but that the question will be finally and amicably adjusted under the incoming administration.

Mr. Johnson is not likely to be removed by the new administration, but will be permitted to remain in office until his term is over. If Mr. Seward fails to delay the settlement of this important question, he should be agreed upon by Lincoln and Johnson.

LONDON, Dec. 25.—An Aachen dispatch says that Turkey has put two regiments of volunteers at the disposal of the government for service in Crete.

MARSELLUS, Dec. 25.—The Aachen states that the forces of the allies by the Pyrenees at Villeret, the Brazilian ironclads were all repaid.

LONDON, Dec. 25.—A deputation of artisans who called upon him for a colony in Nebraska.

London, Dec. 25.—The Duke of Montpensier publishes a manifesto in his liberal views. The Imperial suggests the nomination of his son to the throne.

LONDON, Dec. 25.—The Oriental question absorbs much attention. The British, who had some success, predicted upon their return, after results, that they would be successful in the matter. The British Government, to make up for the loss of the Rockwood Asylum, is to be paid by the British Cabinet.

The answer to Mr. Seward's communication to the Foreign Office, on the 19th instant, the British Government accepts all the demands of the United States.

It is said that the present situation, as far as was to be expected, adheres to the old policy of England in regard to Turkey. Napoleon has sent a note to the British, in which he says that the French troops are to be withdrawn from those parts of the empire which are not directly threatened by Russia, but much on an incurred risk.

A manifesto from General Gordon, who is to be sent to the Orient, will be the word for a new movement on the part of England.

It is said that the recent homicide of Mr. G. MacMahon, the American Minister to France, was committed by a Frenchman, and that Dos Pedro, the Brazilian Emperor, is in consequence, threatening war.

Paris, Dec. 25.—The Consul of the Argentine Republic, Dr. M. A. MacAdam, sent 27.—The Argentine Ambassador to the United States, additional troops have sailed for the "Cerro" special from London, the 26th, says: The Argentine mission commented on the arrival of the rebels, who have been favorably received. The recent violence by the British has led to a demand for compensation, and to an investigation. Mr. Burroughs has accepted to pay for the damage.

There is no resurrection of the Pastoral.

It is most likely that it will live no more.

The eternal flame, vivat res.

—

Take then the book of fate into hand,

And for the new year write the great decree;

And when that will let the end be known,

The eternal flame, vivat res.

—

Four hours more and the heart of the Old Year will cease to pulsate. A few more throbbing pulsations and it will be forever. Standing by the side of the tomb into which the spirit of the past has now entered, looking down, into its depths, what memories throng the brain—pleasant memories of joys and loves, of happy reunions, of good gifts of Heaven and Earth, of the silent, cheerful peace which no man can give nor take away, of the religious treasures of the soul, of the quietness of the grave, of the repose of the sepulchre.

New Year, Dec. 30.—At a meeting of the Board of Trade, a bill was introduced to prohibit the sale of oranges in boxes, unless the boxes are made of wood, and are not less than 12 inches square.

FRONTIER JUDGEMENT.—The News states that Mr. O'Reilly has announced that he is to file a bill in the Legislature to prohibit the sale of oranges in boxes.

TIPTON.—A telegram from Ottawa says:—

—

BRUCE FROM THE RICHARDSON MIRE.—We have shown to day another block of gold worth \$17,000, the result of two days' work in the mine, and the miners are thoroughly satisfied with the revolution which has taken place in the Bruce mine.

TO WARS AWAY.—The Morbridge Court says:—"My P. D. Conger and the George E. Henderson, of the Royal Canadian Rifles, proceeded to Front Street to the Episcopal Church to offer themselves for service in the approaching winter, and I am sure that you will be pleased to receive them."

—

CLOSING UP THE LEDGER.—Time!

—

Many a good year, good bloated scroffs.

Many a high and haughty, well.

—

Yet one page to see is given.

Marking the passing path we climb,

With steps which lead us to the prison,

among whom were a number of visiting Brethren from a distance.

The Richardson Gold Mine.

—In a late issue of the Leader, I ob-

served a letter from Mr. W. H. Palmer, Field

Geologist, which occurs these passages:

"I can assure you (meaning Members of

Parliament of Assembly, to whom he re-

ferred in the letter) that there is no

gold in the mine, and I have

no criterion for the District."

In the winter of 1868, Mr. Palmer

had been to the mine, and

had seen nothing but

water and mud.

—In a large number of

cases, the water was

so deep that

he could not

wade through

JAN. 15,

WOOL CARDING!

TUE underengaged will in a few days have his New Factory in operation in the Town of Belleville, the first of its kind ever built by Mr. Joseph Head, where he will open business with the

Latest Improved Machinery.

He would say to all those who manufacture their own wool, that it is the

CUSTOM CARDING!

The wool will be passed through a single Carding Machine, which is on the drum a signal is given by a bell; from thence it is taken in a form of a carded web, and made in rolls or roving. This manner of carding makes no waste, and the cost of carding is less than that of carding by hand, and the cost of roving is equal to it. He will also do Custom Fulling, Cloth Dressing Pressing, Weaving, and manufac-

turing of Yarn.

With his long experience in the business, and the latest improved machinery, he fancies that he will not fail to give the best satisfaction.

He will further call the attention of the public to his

DOMINIC SPINNER!

for the mohair and spooly manufacturers, which it

will be sold at the rate of \$2.50 per pound, and of roving \$2.00 per hour.

It requires the same amount of rolls, roving and spinning, as the old way of doing it.

The upgraded wool manufacturer, who is

working for custom, will find his work

done in a day or two.

He will be pleased to purchase a Spinner can

one at a time, on the under-

mentioned terms.

JOHN LAZIER

25 — To accommodate those who come to the city with wool, he will receive

wool to be sold for the Factory in the building

of the former Officers over the Butter

Market, Belleville, May 33, 1863.

PALE ALE, BEER & PORTER,

as any other Brewery in the Dominion, manufactured for the best Malt and Hops, and is now ready to supply them.

Every care has been taken and

properly attended to.

Ontario Legislature.

SATURDAY, JAN. 23.

The Speaker took the chair and the session opened.

Atty. Gen. Macdonald introduced a Bill organizing a Provincial Police Force. He did so because he desired members of the House during the recess to consider it, and also that it should be opportunity given for all to have an opportunity to consider it at large. Whether the Bill should be brought down next Session as at present, or in a more modified form, will depend on the estimates of the members of the opposition, who will be in a position to judge of justice, which would depend on the opinions elicited during the recess. The honourable gentleman said that he had a good reason to believe that it would be found that this system, if properly carried out, would not be an improvement over the existing one, and would, in fact, cause him to move the first reading. He might add that the Bill with the assessment and liability of the roads would be distributed during the recess.

Mr. McKeown did this, so doubt that the bill introduced was of very important subject, and he was sure the House and country, too, would sustain the Government in their intention to suppress and prevent the crime.

Whether this Bill would accomplish that object or not, the House was not of course in a position to say, but it was clear that the Government acted properly in submitting the measure for consideration during the recess. He suggested that, in distributing the roads, the same principle of the Law Bill, the better way would be to address them to the Clerks of every Municipal Council.

Atty. Gen. Macdonald—That shall do.

Mr. McKeown would like to know whether members would have the privilege of reading Parliamentary papers, within their own Committee, on returning home?

Hon. Mr. Cameron said that his Attorney General had written to him from Ottawa, giving him information on this point, but had not yet received it.

Atty. Gen. Macdonald said he would see from there about it.

The Bill was read a first time.

The Speaker then left the chair, whereupon the Hon. Mr. Bowell and ladies obtained an entrance to the body of the House, were allowed to make their seats. Among the present were Chief Justice Charles H. C. Tupper, Mr. Justice Justice Biggar, Vice-Chancellor Sprague, Vice-Chancellor Mowat, Judge Morrison, Justice Galt, Mr. Dr. Wm. D. Drury, Justice Galt, Rev. Dr. William D. Drury, Dr. Barclay, Rev. Dr. Ryerson, Rev. Dr. Green, Sheriff Jarvis, Recorder Duggan, Mayor Lammie.

At one o'clock, His Excellency the Lieutenant Governor drove down to the House, accompanied by the members of the Legislature, and saluted a guard of honor of the 18th Hussars.

He then ascended the steps, and saluted a guard of honor of the Royal Canadian Dragoons as he passed into the building.

Afterwards the Lieutenant-Governor was pleased to address the Legislative Assembly in the following words:

Mr. Speaker, and Gentlemen of the Legislature Assembly.

In addressing you from your Legislative labours at this time, I desire to express my profound sense of the zeal and devotion with which you have discharged your duties during the session, and I tender to you my acknowledgments for the prompt attention which you have given to the several important measures which I have had the pleasure to suggest for your consideration.

The present Bills which you have passed, I have given my hearty endorsement to, and I am persuaded that they will contribute to the promotion of the interests of the Province.

I thank you for the grants made for the service of the year, and for the appropriations made for carrying on public works at the expense of the Province.

I take leave of you, convinced that your exertions in your several capacities will be directed to the welfare of our Province, and of the people a hopeful confidence in the future of this growing Province, the government of which has been established upon wholesome and lasting, administered impartially to all—a condition of things we trust will make to you a happy and a prosperous people.

The House was then adjourned.

This undersigned will in a few days have his New Patent in operation in the Town of Belleville, on the site formerly occupied by Mr. Joseph Reed, where he will open a Wool Carding Machine.

With all the experience in the business, and the advantage of the latest improved machinery, he fancies that he will not fail to do well.
